

WHERE EVERY THREAD
REFLECTS
EXCELLENCE

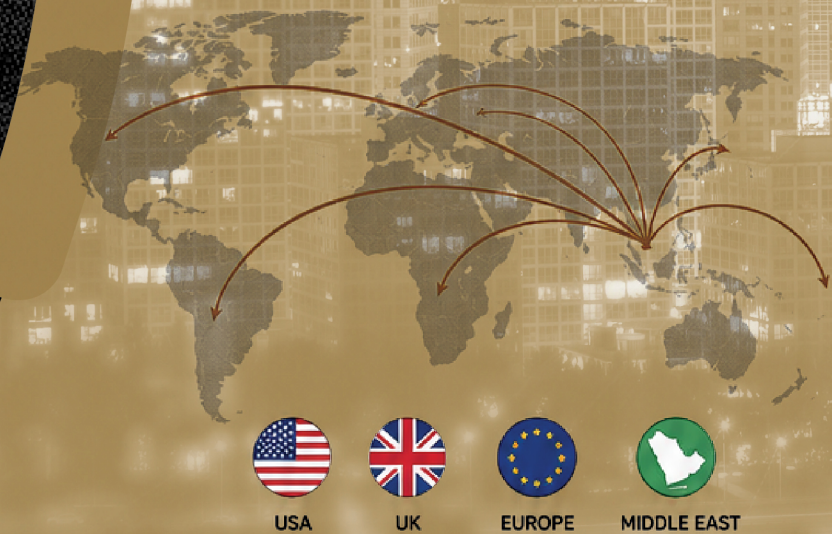

WHO WE ARE

J.S Textiles is a globally oriented textile manufacturing and trading organization with a legacy rooted in excellence and innovation. Our journey began in 1995 with the establishment of **Printing Press JS Enterprises**, supplying textile products to international markets including the USA, UK, Europe, and the Middle East.

In 2010, we expanded our operations by setting up a state-of-the-art spinning, weaving, printing, and dyeing unit in China name **Changxing Zhengxin Textile Corporation Co Ltd.**, strengthening our production capabilities and enabling us to serve customers worldwide with high-quality fabrics. The company has an annual production capacity of 9,000 tons of chemical fiber yarn and 275 million meters of chemical fiber fabric. It is equipped with 25 texturing machines, 8 sets of warping equipment, and 2000 water-jet looms.

Building on decades of experience, **JS Textiles** was established in 2020 in Faisalabad, Pakistan, as a dedicated importer and exporter of home textiles and related products. Today, we continue to grow as a trusted name in the global textile industry.

With operational expertise in Pakistan and China, J.S Textiles proudly serves customers across the USA, UK, Europe, the Middle East, and other international markets.
